Acid Blue 9

It's a state of mind expressed through different design works exclusively selected for the occasion of the third edition of Collectible Design Fair.

Paolo Gonzato, La Cube and Felix Muhrhofer have quite a tradition with the gallery but also the works of Parasite 2.0, Tellurico, Shahar Livne, Ines Sisitiaga and Lucas Munoz, have been recently presented in one of the latest exhibitions of Camp, as well as Stefania Ruggiero and Giada Montomoli, new comers of the Milanese scene.

Random beauty, easy exercise for the eye with a profound attention to the hic et nunc of our relationship with objects, our possession and our consumption.

"Camp taste is, above all, a mode of enjoyment, of appreciation - not judgment. Camp is generous."

Susan Sontag

Camp Design Gallery, Milan, specializes in collectible contemporary design that aims to investigate material culture, renewing the concept of production beyond the canonical limits of art and design.

Founded in 2015, the gallery work is based on research, experimentation, and contamination of contemporary codes that result in unique design projects born from the collaboration of international designers and artists.

Camp engages in scouting and guidance for new talent, through a continuous mix of renovation, study and research and an annual program of exhibitions, trade shows and events.

A new space for design, a place that generates opportunities and synergies to create a constructive cultural network, critical and dynamic, opening up to curatorial projects and partnerships with cultural institutions and art foundations.
